Greater Love Hath No Man

Nineteen hundred years ago there dwelt in Judea a Man in Whom was united the Divine with the human. He went about doing good to all men, but even His own did not receive Him. Yet, imbued with divine love, he gave His life in order that we might all be saved and enjoy eternal happiness in the after life. "Greater love than this no man hath that he give his life for a friend." This is the event which is commemorated today Friday, March 23, known as Good Friday, because of the great benefits accrued to mankind by the Passion and death of the Savior.

Mankind in general has forgotten the lesson of Calvary. Today we see the world convulsed because of the lessons of hate which have been taught such great masses of youth and because of the insatiable ambitions of men drunk with power and wanting still more. Millions of lives have been snuffed out in the flower of their youth because of this hate and these ambitions, and the end is not yet.

Man must return to the practice of his duty to God and to his fellowmen, and through love and sacrifice approach the foot of the Cross. No time is better than today when all must exert themselves to resist the desires for riches and power, opportunities for attaining which are numerous because of the confusion of the times. We must all be willing to give up some of our comfort and some of our possessions, and some of our leisure for our own safety and the good of all. The greater our sacrifices are the better will be the results.

The lesson of Calvary is brought home to us most vividly by the sacrifices of our own on the battlefield. Our sons, our brothers, our husbands, and our sweethearts offered their lives AND GAVE THEM that we may all be free. Let us emulate their sacrifices, and in the light of the Cross raised high on Calvary, determine to exert ourselves for the common cause, setting aside all personal gains and selfish desires, so that we may attain peace with victory and justice, and liberty for all.—Contributed.

Poplarville, Mississippi, March 23, 1951—Final practice sessions were held at Pearl River Junior College, Poplarville, Tuesday, March 13, Coach T. D. "Dobey" Holden, Athletics Director for the college announced today.

They brought to a close the month long schedule of pigskin instruction.

Approximately 20 boys were on hand for the sessions. It was a reduction from the number anticipated earlier in the year because of the call to service of the college's national guard unit in January.

Supplementing this group of holdovers from last fall's roster will be the usual newcomers from high schools in the PRC area. Although inexperienced, they are expected to aid in supplying some degree of depth in the various positions.

Coach Holden commented that several of the players were "shaping up nicely," but has made no statement concerning losses of important material to graduation and the armed services.

Top priority was given to the development of a man to fill the quarterback slot, vacated by Billy Jarrell who was picked for last year's second team all state junior college eleven.

Two players were assigned to the position, Douglas Daniels, who is a holdover from the 1950 squad lists, and Arab Morris, recently stepped up from the high school elevens.

Both hail from Poplarville and have been described by Holden as "looking good."

Those who were listed on the squad roster during the Spring sessions were:

Arab Morris, Douglas Daniels, A. L. Jacobs, Buddy Thorton and L. M. Greer, all of Poplarville, Mississippi.

Jimmy Mason and Howard Wilson of Columbia; Marion Salloom, Mickey Stewart, and Billy Ray Frierson of Picayune; Bobby Joe Jennings of Prentiss; Artha Ray Bryant of Pascagoula; JOHN VAUGHN of Bay St. Louis; Bennie Hinton of Richton.

Richard Morgan of Franklinton, Louisiana; Don Schut of Chicago, Illinois; Billy Evans of Trenton, Tennessee; Thaddeus Troclair of New Sarpy, Louisiana; Thomas Cannon of Bog Grande, Florida; and Nolan Lougue of Destrahan, Louisiana.

has been contracted to roof the entire building and work is expected to be completed in time for the Easter Dance, according to the secretary of the Association.

Mr. and Mrs. Lawrence LaFontaine announce the birth of a daughter Monday night. Their seventh child weighed nine pounds. The LaFontaines now have five sons and two daughters.

State Garden Committee Meets

By MISS MADGE ALLRED

The State Garden Committee met in Jackson last week to plan Mississippi's part in the National Garden and Food Preservation program. This committee is made up of representatives of civil and agricultural groups over the state.

It was the opinion of this committee that the county garden committees of the Victory Garden days of World War II should be reactivated and that they take an active leadership part in this program.

Present at the state committee meeting was Paul Stark, now a consultant to the Secretary of Agriculture and who was director of the Victory Garden Program during World War II. Mr. Stark is one of a number of information teams from Washington traveling through the nation to get this program rolling.

The program was named the National Garden and Food Preservation program with the idea of it being a long range food production and preservation program, rather than just a wartime program as was victory gardens.

Mr. Stark believes that the real contribution of home gardens will be to make our people healthier and stronger. It will also help meet high food prices and curb inflation, take a strain off the transportation system and provide home food supplies to meet emergencies.

Miss May Cresswell, state home demonstration agent, cited figures which showed 56 percent of the young men called are rejected by Selected Service in Mississippi. She thinks a long range program of producing and conserving and eating nutritious vegetables from home gardens will help raise our next generation to be stronger and healthier.

Along with growing the vegetables every family must realize the need to save surplus ones by canning, freezing or some method of food preservation, emphasized Mrs. Ann P. Felder, Extension foods and nutrition specialist. Recent surveys show, he said, that about two-thirds of the families in Mississippi are doing nothing about canning or freezing foods.

The freezing and rains of January and February delayed gardening, but K. H. Buckley, Extension agent, said that the weather was a boy who knew Pen-

Pay-As-You-Go Programs Contract For 44 Projects

Mississippi's Pay-as-you-go Road Building program, in operation since last September, has contracted 44 projects at a total cost of \$6,125,000. These jobs are located in 37 counties.

Legislation setting up the pay as you go road program became effective in July last year, though it was pointed out by the Highway Department that funds to pay for the program did not start to accumulate last September 1st.

All Highway construction and maintenance work under the new program, financed by an added one-cent to the State gasoline tax, is in a cash and carry basis. Sufficient funds must be in sight at the time the project is to be completed, or already on hand, under the new law, before contracts can be awarded.

Included in the \$6,125,000 worth of highway work are jobs let in January and February. Gasoline Tax collections, listed for February, totaled \$2,699,735.26 with \$551,302.26 being only on pay-as-you go construction. Of the \$2,699,735.26, the Highway Department was allocated \$1,659,906.77 for all purposes.

Mr. and Mrs. John Bell had as house guests over the weekend Mr. and Mrs. Swayne Latham of Memphis, Tennessee.

"It takes a lot of Customers to make it Pay!"

You bet it does, son. You'll make many a sale before your business shows a profit. This is particularly true in the oil and gas industry, where large amounts must be invested in property and equipment. United Gas has invested over \$138,000,000 for these purposes in the last five years alone. During 1951 our company plans expenditures of many millions more to enable thousands of additional homes and businesses to share in benefits of low-cost natural gas service.

FORD WINS AGAIN!

V-8 TAKES FIRST PLACE IN CLASS "A"
1951 MOBILGAS ECONOMY RUN

Both Ford V-8 and SIX Deliver more than 25.9 miles per gallon

Grueiling 840-mile test proves Ford Economy

Again this year... it's high honors for Ford! In the most important economy trial for American stock model cars... the famous annual Mobilgas Economy Run... A Ford 100-h.p. V-8 equipped with Overdrive took first place competing against all cars in its price class, making 54.587 ton-miles per gallon* and 25.994 miles per gallon. And its companion in quality, the new Ford SIX with Overdrive was right up there with the winner. In fact, both cars averaged better than 25.9 miles per gallon.

Traditional Ford economy, for the second straight year, has been proved in open competition. Proved on the tough 840-mile grind from Los Angeles to the Grand Canyon... a course that included city traffic, below-sea-level desert heat and 7,000-foot mountain passes. Ford's Automatic Mileage Maker, standard equipment on all Ford V-8's and SIXES, contributed to this great achievement by squeezing the last mile out of every drop of gasoline.

Why not "Test Drive" the new Ford at your neighborhood Ford Dealer's? There's no better way to be convinced that "You can pay more but you can't buy better!"

*The AAA Contest Board determines the winner by a "ton-mile per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles travelled, divided by number of gallons of gasoline consumed.

URGE FARMERS TO USE CARE

By HOWARD SIMMONS

FORESTRY PRACTICES FOR MARCH

Farmers are urged to use extreme care in clearing fence corners and field borders. Many forest fires are caused from these practices. Fire, in the woods, is one of the most destructive "accidents" that can happen to a timber stand.

Plan your fire lanes now so as to prevent small grass fires from spreading to the woods and destroying your timber stand.

Now is the time to clean up your woods. Thin your stand by removing trees that are causing crowded conditions. Remove undesirable trees that are interfering with the more desired ones. Cut a supply of summer stove wood now so that you will not have to cut it later during the busy cropping season.

PLANT TREATED COTTON SEED

Due to the shortage of good planting seed of 80 percent germination or more, the need for planting treated seed is greater than ever before.

Seed treatment helps to prevent seed decay or rot; it permits earlier planting, saves scarce expensive seed and makes for better stands of cotton. For increased yields from healthier fast-growing young plants, all farmers are urged to plant chemically treated seed. It will save the labor and expense of replanting.

The cost of treating seed is little. Dusts for treating cost 3 to 4 cents a bushel and the cost of delinting mechanically is about 10 cents a bushel.

Use a good chemical dust as "2% Cercosan," "Cercosan M" or Dow 9-B. Do not use mechanically delinted cotton seed. On smooth chemically delinted seed use Spengon or Arasan. Mix the chemical thoroughly with the seed. A home made rotary barrel seed treater is good. Use the correct amount of chemical with the recommended poundage of seed. Follow recommendations of the manufacturer.

Caution... Do not inhale dusts. Wear approved mask when treating seed. For safe storage of treated seed, do not store seed containing more than 12 percent moisture.

Give a thorough treatment using the proper chemicals and at the right dosage. Poor treatment is no better than no treatment.

CERTIFIED SEED
Fiscal dates for making application for seed certification are: Clovers, watermelons, fescue, April 1; wild winter peas, field peas, oats, wheat, barley, rye, April 15; hybrid corn, May 1; sugarcane, June 15; cotton, rice, sorghums, soybeans, open-pollinated corn July 15; and lint certification, June 15th.

Plan High School Day At P. R. J. C.

Poplarville, Mississippi, March 23, 1951—At a meeting of a number of county superintendents of education and a group of high school superintendents from the counties in the Pearl River Junior College area held last Friday, March 9, at Poplarville, it was decided to continue the observance of the annual High School Day at the college; it was announced here today by educational officials. Thursday, March 29, has been set as the tentative date for the event.

The meeting gathered together educational leaders from Pearl River, Hancock, Jeff Davis, Marion and Lamar counties for the discussion of educational needs and problems on the high school and junior college levels in this area.

A detailed tour of the PRC campus and its facilities and components was the opening item on the day's activities for the group.

Following a dinner with the college students, a general round-table discussion was held with Mr. R. D. McLendon, President of Pearl River College, presiding.

During the talks, it was proposed that a School Educational Council be formed as a permanent organization to correlate the work of the high schools and junior college of this area.

President McLendon stated the success of the meeting. "It was a good meeting. Response was most enthusiastic on the part of all concerned. We discussed several ways and means of benefiting education on the junior college level during the talks."

HADACOL Helps Folks Suffering from Deficiencies of Vitamins B₁, B₂, Nicotinic and Iron.

Registered nurses, in increasing numbers, are showing a keen interest in HADACOL and in the results that are being secured with this great modern formula. Requests have been received from many of these nurses for professional samples of HADACOL and many of them

Improved Pastures Prevent Erosion

Improved pastures provide the most protection against soil erosion, says Fitzhugh Lee, chairman of the Hancock County PMA Committee. At the same time, here for sure, they may produce as much feed for live stock as corn, Mr. Lee added.

According to studies made by the U. S. Department of Agriculture, there are many instances where improved pastures have produced as much livestock feed per acre on comparable land as high-yielding corn crops and considerably more, than other grain crops. On the other hand, the per unit cost of production is lower, Mr. Lee stated.

These studies showed that the cost per 100 pounds of total digestible nutrients from improved pastures is less than a third of the production cost of corn for grain, about a third of the cost of corn for silage, and only about a fourth of the production cost of oats for grain, the chairman added.

Returns from pasture per man hour of labor were six times higher than from corn, nine times higher than from oats, and nearly 10 times higher than for barley, he concluded.

Logging It On TV

By JAY METZ

Last week, when I wrote my column, I felt in a most benevolent mood—so instead of doing the usual criticizing of our only TV outlet. I tried to excuse them for their actions and explain why they probably did some of the things they did. So what happens? They made a mess of things, as far as I was concerned.

A month or more ago, Horace Heidt became a regular Saturday afternoon feature. We were mighty pleased to see this show, and so stated. This is a good family program for it brings young and old alike to the fore, showing their respective talents, and giving them a chance to get started up the ladder of the entertainment world. As Horace says, "It's better to build boys than to mend men."

But what happens? Last Saturday WDSU-TV scrambled up their Saturday afternoon schedule and moved Heidt back to 11:30 p. m. Now just how many children are up and stirring at that hour to view a genuine family program? For that matter, how many of the rest of us last night?

Instead, we had a bunch of so-called singers named Sinatra, Como and Layne show up in an afternoon spot. Stuff definitely not "family" and something which should have been scheduled for the 11:30 p. m. spot. That's about the hour the bobby oyers get back home these nights.

Enough of the above. But if I had a vitriolic pen I'd sure do a blast.

One of the best programs we've seen in a long time last Saturday was Gracie Allen and George Burns. They were a howl from beginning to end. They were the usual screwy pair we have heard on radio for so long. Jack Benny and Fred Allen had better look to their laurels for this pair will gain a following. They don't act nervous, nor seem to worry. They just have fun, and as a result, give the audience a lot of fun, too.

Hoppy—our Number one family program—has changed sponsors—and has changed for the worst if current practices continue. Merita Bread used to sponsor this program, but now Sears has taken over. We didn't mind when Sears opened with a commercial, nor had another at the half-way mark, but when they stopped the action at the very climax of the story with only a few minutes to go, just to throw in another commercial, that was too much. Be a sponsor, Sears, get your plugs in at the beginning, middle, and end, but please for goodness sakes, don't chew to pieces the best family program on the air. Don't be "small town"—act like you're on the "big time" and give the audience a break.
